JACKSONVILLE, ILLINOIS, SUNDAY MORNING, MARCH 27, 1904

SURPLUS FOR THE YEAR

GOOD SHOWING FOR NEXT FISCAL YEAR

Sundry Civil Appropriation Bill Reported to the House—Republicans Complimented by Democrat on Bill.

Washington, March 26.—The house today began consideration of the sundry civil appropriation bill. Ten hours were spent on the measure, but at the end of an hour and a half there were no speakers ready to continue and the house adjourned for lack of talkers.

In his statement on the bill Chairman Hemenway of the appropriations committee and Benton, Democrat, filed statements on the bill. Hemenway summed up the fiscal condition for the next fiscal year, showing that after all legitimate expenses had been paid there would be \$22,000,000 surplus for the year. Hemenway estimated the annual expenditures for 1905 to be \$297,822,311; to this sum must be added the interest on the public debt, estimated at \$151,472,099. Total estimates of the departments for the expenses of the government in 1905 aggregate \$449,294,410, or an excess of \$12,845,862 over the revenues. By scaling down estimates and omitting to pass the river and harbor and public buildings appropriation bills expenditures had been reduced \$22,000,000 less than the estimated revenues. This estimate, Hemenway said, contemplated all reasonable additions that may be made by the senate to the several appropriation bills and is also sufficient to cover all legitimate deficiencies that may have to be provided for next session. Benton complimented the Republicans on the bill, saying it was altogether the best Republican bill he had seen come from the committee in years. It, however, did not meet with his approval from a Democratic standpoint.

A number of minor bills were passed by unanimous consent and special orders were made for consideration of pension bills. The omnibus claims bill will follow pensions as special order.

SENATE.

The senate was in session only about three hours to day. During that time a number of private pension bills were passed and another portion of the District of Columbia appropriation bill was read and debated.

CRITICISED WARE.

In the house to day Mieres (Ind.) criticised the recent order of Commissioner Ware granting pensions to soldiers 62 years of age or over. During his speech Mieres presented estimates of what it would cost to place the order in effect. Mieres divided the soldiers into their pensionable classes—those not receiving pensions, those receiving pensions under the service pension act, and those receiving pensions under the general pension law. To pension the first class, he said, would require \$10,704,000, the second class, \$3,470,568. The third class, Mieres said, was composed of twenty soldiers who are drawing less than \$6 for disabilities actually received in service. To bring these up under the order would only require \$501, while it would require \$7,200,000 to execute the order to those who had never been able to prove any pensionable disability whatsoever. The only precedent cited for the order was an executive order pensioning Mexican veterans at \$12. This was an unfortunate precedent, said Mieres, because the Mexican soldiers met responsibility for one year only, while \$6 is to be given soldiers who fought for four years during the hardest war of history. Mieres said it was not the right to enact such legislation against which he contended, but the manner in which it was done. He said Congress had been preparing to answer a great demand for service pensions and inasmuch as it was the function of congress to legislate for the country the executive order, whether issued through the interior department or by the president himself, "was in very bad taste, to say the least."

A STATEHOOD BILL.

Washington, March 26.—The states of Oklahoma, composed of Oklahoma and the Indian territory, and Arizona, embracing Arizona and New Mexico, are created in a bill which has been completed by Republican members of the subcommittee of the house committee on territories. The bill will be presented to the full committee in a few days. The bill admits Arizona to statehood immediately, but Oklahoma will not be admitted until 1906, when all Indian lands will have been allotted.

CAPITAL NOTES.

The senate committee on judiciary to day ordered a favorable report on the bill inflicting the death penalty upon a person who shall willfully cause the death of a president, vice president, any officer upon whom the powers and duties of president may devolve or any minister of a foreign country accredited to the United States.

The house committee on rivers and harbors to day decided to report a bill next week carrying an appropriation aggregating \$2,000,000 to carry on existing river and

harbor improvement contracts. No new surveys will be authorized.

A committee of the Lake Carriers' association appeared before Secretary Taft to day and protested against the use of government dredges in the improvement of Lake Michigan and other waterways in the lake region as an infringement on the rights of private dredge companies. General McKenzie, chief of engineers, was called into conference for his views on the situation. The secretary said he would take the matter under consideration and see what could be done to meet the wishes of his visitors.

Representative Bartholdt of Missouri introduced a bill to day providing for incorporation of the National German-American alliance. This organization, he states, has a membership of over 1,500,000. A report received at the navy department from the New York navy yard announces that about eighty days will be required for repairs to be made on the Illinois, which was injured in a collision with the Missouri.

RUDOLPH SIEGEL

Son of Famous General Tries to Kill a Woman—Is Inmate.

Egg Harbor, N. J., March 26.—In an insane frenzy Rudolph P. Siegel, son of the famous soldier, the late Gen. Franz Siegel, tried to kill Mrs. Urth, elderly wife of a neighbor. Siegel was discharged from an asylum several years ago. He acted strangely at times, but was considered harmless. One of the Siegel children is missing and it is feared it has been killed and the body hidden.

DUAL TRACK MEET.

Ann Arbor, Mich., March 26.—Michigan defeated Cornell to night, 19 to 23, in a dual track meet. Rose, Michigan's great record-breaking shot-putter, was barred from the meet by the protest of Cornell, but gave an exhibition, making 48 feet 9 inches with the 16-pound shot. F. J. Porter, of Cornell, won the shot-put at 41 feet. Michigan took both places in the 60-yard hurdles and won first and second in the half-mile in 2:02.5. Philippe, Cornell, won the mile vault, 10 feet. Michigan's hitherto unbeaten track captain, Kellogg, was defeated in the mile run by Schutt in 4:28. The high jump was won by Cairns, Cornell, at 6 feet.

SOCIALISTS LOSE A SEAT.

Berlin, March 26.—The socialists lost a reichstag seat at Schoppan, Saxony, yesterday to an anti-Semite. The vacancy was due to the death of Herr Rosenow, who won the seat in 1898 and was re-elected in 1903 by 2,740 majority. The socialist candidate, Herr Pinkau, has now been defeated by 1,600 votes owing to the disaffection of the socialist voters.

WANTS TO MARRY.

Dubuque, Iowa, March 26.—After spending seven years in cloister Sister Annette, of Burlington, Iowa, has made application to Archbishop Keane for a dispensation freeing her from her vows in order that she may wed one of her music pupils, Harold Stevenson. Sister Annette is a member of the order of Sisters of Charity and at the mother house in Dubuque the story that she desires to forsake her religious life was confirmed.

STORM AT LOUISVILLE.

Louisville, March 26.—Eight persons were injured and extensive damage done to city and suburban property by a storm which swept over Louisville. WARNING GIVEN RIVER TOWNS

WEATHER BUREAU ISSUES FLOOD BULLETIN

Dangerous High Stages May Occur Along Illinois River Next Four to Six Days—Reports From Flood Districts.

Washington, March 26.—The weather bureau to night issued a special river bulletin in which it is stated that the heavy rains of the past two days over the eastern and southern portions of the Mississippi river watershed have caused the annual seasonal spring rise to set in over that district. Owing to the prolonged period of low temperatures during the past winter the spring rise was somewhat delayed, but rising waters may now be expected for some time to come.

Flood warnings have been issued for dangerous high stages to occur in the river along the Illinois river within the next four to six days. The Mississippi river is open from Dubuque southward and is rising rapidly below the mouth of the Illinois river. There is sufficient water now in sight in the Ohio river to cause a stage of forty-four feet at Cairo within a few days.

CITY IN DARKNESS.

Grand Rapids, Mich., March 26.—This city is in darkness to night. The Grand river is still rising; 3,000 buildings are flooded; 1,500 families are imprisoned in their homes on the west side; 10,000 employees are thrown out of work and the river is seven feet above the danger line. The estimated loss is \$1,500,000.

Such is the flood situation here to night. The west side of Grand Rapids is under water from two to six feet deep. South of the city the river is five miles wide. Every bridge and dam on the Grand river between this city and Lansing has either been carried out or so damaged that it will go out within a few hours. Train service is completely demoralized and this city is practically cut off from all points.

OVERFLOWED LEVEE.

Marion, Ind., March 26.—The Mississippi river to night overflowed the levee at East Marion, submerging more than 300 houses. People were rescued from tops of houses and trestles by men in boats.

Princeton, Ind., March 26.—Southwestern Indiana is a sea of water to night, 20,000 acres being submerged. Railroads are crippled by washouts.

SURROUNDED BY WATER.

Grand Rapids, Mich., March 26.—On the west side of Grand Rapids 2,500 residences are surrounded by water to day and the occupants are getting about in boats if at all. The Grand river continued to rise throughout the night until it has gone beyond anything known in the history of the river. A large number of west side streets have become veritable streams, with water rushing swiftly through them to a depth of three to five feet.

Indianapolis, March 26.—Late to day all flood records since 1872 had been broken here and the White river is rising two inches an hour. Police authorities issued a call for volunteers to assist in moving families from submerged lowlands.

Detroit, March 26.—The flood situation throughout southern Michigan seems decidedly hopeless to night. At present the point of greatest danger seems to be Grand Rapids and along the Grand river. Estimates made at various cities affected indicate that flood damages will run up into several millions of dollars. The number of drownings reported was increased to three to day by the death of Joseph Kirkbride, who while riding horseback was swept off a flooded bridge at Sarnak.

Eight bridges were destroyed at and near Flint to day and two fires were caused by lime. The Durant-Dort carriage factory was wrecked by the flood.

Railroad officials in Detroit have been notified of the continued rise of water at several points, notably Lowell, Battle Creek, Flint and Grand Rapids. Train service on the Grand Trunk between Ovid and Grand Haven is abandoned. The same situation prevails at various points on the Michigan Central and Pere Marquette.

Kokomo, Ind., March 26.—By the collapse of the levee on the Wildcat river to day a large portion of south Kokomo is flooded and fifty families made homeless.

London, Ont., March 26.—The most serious flood in fifty years inundated the residence portion of the city to night. The Thames river rose fifteen feet in four hours. Many women and children were rescued in rowboats. Duncan Martin, a medical student, while trying to reach a number of acquaintances with a canoe was upset and drowned.

Terre Haute, Ind., March 26.—The Wash river has reached 23 feet, the highest point since 1882. One hundred people are huddled in a school house at Taylorville, across the river, where the water throughout the city is more than five feet deep.

Amsterdam, N. Y., March 26.—Despite falling temperature the Mohawk valley is to night threatened with the greatest flood in its history. The water has already attained an unprecedented height. Railroad traffic through the Mohawk valley is entirely suspended.

DIED ON GALLOWS

George Collins Hanged at Union Mo.—Rudolph Found Guilty of Murder.

Union, Mo., March 26.—George Collins, alias Fred Lewis, was hanged this afternoon for participation in the killing of Charles J. Schumacher, a St. Louis detective, on Jan. 25, 1903, at the home of William Rudolph, Collins' partner, near Stanton, Mo.

RUDOLPH FOUND GUILTY. While the body of George Collins was dangling on the scaffold to day in execution for his part in the killing of Detective Schumacher the jury in the case of William Rudolph was considering evidence connecting Rudolph with the same crime, and almost before Collins' body had grown cold in death the jury returned a verdict of murder in the first degree against Rudolph. Hanging is the punishment prescribed by law. The sentence was deferred pending the filing of a motion for a new trial.

A motion for a new trial for Rudolph was denied and he was sentenced to hang May 13.

CRITICISES FRANCE

Pope Pius X. Censures French Government in Address Welcoming Emperor William.

Rome, The Observatore Romano, the Vatican organ, publishes a welcome to Emperor William which is considered to be inspired by the pope. The article in praising the emperor attacks France and says:

"The noble figure of the German monarch in the present historic moment is an emblem of the program which personifies the best form of modern civilization and shows it to be a modern, progressive nation, unnecessary to drive out monks and nuns, to impose atheism in schools, to violently silence bishops and to fire a whole people with an unwarranted and uncomprehended struggle."

The article is considered to be confirmation of the strong words addressed by the pope to France in a speech at the cardinal's March 18, which, it is expected, may lead to a rupture of the concordat.

PROTEST FROM PARIS.

Paris, March 26.—The protest which the French government submitted to the Vatican was not in the form of an official note, but was a verbal protest by the ambassador of France at the Vatican to the papal secretary of state. Information reaching government quarters shows that the members of the sacred college are divided over the pope's utterances, some regarding them as unwise and uncalculated. It also appears that the cardinals were completely taken by surprise, as the pontiff had not given any intimation of his intention to criticize France. Only a few days before he received a delegation of French pilgrims when it was thought he might make some allusion to France. Having not made it then the cardinals were satisfied the pope would not discuss France at any time.

The incident is regarded as showing the new pope's tendency to carry out his personal ideas irrespective of the views of the sacred college.

MOTHER DIES AS SON SUICIDES.

Clintonville, Wis., March 26.—Truman Van Norman, of this place, deranged by worry over the death of his sister last week and by the long illness of his parents, bade good bye to his mother and father and going to another room swallowed poison. His mother heard his cries and died simultaneously with her son. The father is dying.

St. Paul, March 26.—The snow blockade which tied up northern transcontinental roads for nearly forty-eight hours has been partially broken and ten trains which have been held up in North Dakota are expected to reach St. Paul before midnight to morning. The blockade was the worst experienced for years. The area of the storm appears to have been confined to western North Dakota, eastern Montana and the Canadian northwest.

EMPEROR'S MESSAGE. St. Petersburg, March 26.—The text of the emperor's message to Viceroy Alexieff, notifying him of the appointment of General Kuropatkin to command Russian troops in the far east and of Vice Admiral Makarov to command the fleet at Port Arthur, not only clearly defines the latter's position, but specifically announces that the impending struggle is intended to finally assure the predominant position of Russia on the shores of the Pacific ocean.

PLANS OF RUSSIANS. Tokyo, March 26.—A private telegram from Corea states Russians are establishing a strong position in the vicinity of Antung. They are said to have seven fortresses completed and are engaged in erecting six additional ones. It is reported four batteries of artillery have been established at Chyang Song. Russians are experiencing great difficulty in transporting army supplies, particularly from Liao Lung, as the roads are in bad condition. Food is scarce and Russians have been killing and eating horses.

JAPANESE TROOPS.

Liao Hung, Manchuria, March 26.—General Mischchenko has been informed the Japanese have suspended their advance on Ping Yang Julia. Three thousand Japanese troops are stationed at Anju and a thousand at Pak Ching, while forty Japanese warships and transports are anchored at Chinnampo. According to Russian advice the object of the Japanese is to turn the Russian flank, for which they are awaiting concentration of their army.

WAR REPORTS.

St. Petersburg, March 26.—The report printed abroad that the emperor is going to the front in the summer receives absolutely no credence in the highest official circles.

The mobilization of the Manchurian army is now complete. General Kuropatkin reached Mukden to night.

St. Petersburg, March 26.—General Mischchenko, under date of Mukden, March 26, reports the result of a reconnaissance to ascertain the strength of the Japanese forces. About a mile from Pak Ching they sighted a mounted post of thirty men, which was immediately reinforced by infantry. The Cossacks opened fire, killing two of the enemy. The Japanese infantry advanced and the Cossacks retired.

There are 3,000 Japanese in the town of Anju and warships and transports are constantly arriving at Chinnampo.

A report from Port Arthur says that a company of irregulars defeated and almost completely annihilated a band of fifty Chinese bandits near Vitsino.

The Russian squadron leaving Port Arthur is explained in a dispatch from Makarov to have been for a search of neighboring islands to discover the Japanese base. The squadron returned to Port Arthur without finding the enemy.

Berlin, March 26.—The Vorwarts reports from a Czecho (Austrian Galicia) newspaper alleged official documents showing that Russian army authorities are making most detailed arrangements for transportation of wounded eastward from Russian Poland, proving, it is asserted, that war on the western frontier is not regarded as impossible.

ARTIST KILLS WIFE.

Boston, March 26.—Frank Brown, a scenic artist, shot and killed his wife Dora at their home in Roslindale to day. Brown then shot himself and is in a critical condition. New York, March 26.—A fire that started at noon in the premises of the Morris European and American Express, No. 6 Broadway, destroyed the building and the one adjoining occupied by the Adams and American Express companies and others. The loss is variously estimated at \$100,000 to \$500,000, the difference being due to the difficulty of estimating the loss on property in charge of the express companies. A number of clerks on the upper floors had sensational escapes and eighteen firemen narrowly escaped being crushed by falling walls.

She had been accidentally asphyxiated by gas which had filled the room from a leak in a rubber hose. Her husband has been in New Orleans and is now on his way to Chicago.

CAMBRIDGE MAN

Putney, March 26.—The sixty-first annual race between the crews of the Universities of Oxford and Cambridge, rowed to day over the Putney to Mortlake course, about four and a quarter miles, was won by the Cambridge men, who crossed the finish line four and a half lengths in front of their opponents. The wind, which was very light, was behind the crews over a fair part of the course. The Oxford men began strong and gained the lead, but the Cambridge stroke would not allow himself to be hustled, rowing with great judgment, and at the proper moment when he called for a spurt his men responded gallantly. Thenceforth their longer training told in their favor. Amid tremendous cheering by spectators, the defeated crew rowed a dogged stern race. The time of the winning crew was 21 minutes and 31 seconds.

KING VISITS THE EMPEROR

SOVEREIGNS GREET EACH OTHER AT NAPLES

Both Give Expressions to Love Existing Between Germany and Italy—Refer to Triple Alliance.

Naples, Italy, March 26.—King Victor Emmanuel, accompanied by Foreign Minister Tittoni, arrived here at noon and shortly afterward boarded the German Imperial yacht Hohenzollern. After lunching with Emperor William the king went on board the Italian flagship Stella, where he was rejoined by the emperor, with whom he inspected the Italian fleet, fifteen warships, besides torpedo boats. The inspection occurred amid the booming of cannon, cheers of the crews and great display of enthusiasm on the part of the population of Naples. During luncheon on the Hohenzollern King Victor toasted Emperor William, expressing his joy at seeing him again. He said:

"My people and I recognize and love in your majesty a faithful and sure friend. The bonds which for so many years have united our states to one another in a common ally have been the strongest guarantee of European peace. They should remain."

The king concluded with drinking the health of the emperor, empress and German nation.

The emperor replied with warm reference to beautiful Italy and the hospitality of the Italians. He said:

"The idea of the triple alliance is engrained in an ineffaceable manner on the minds of our subjects. The alliance contracted by our illustrious predecessor and by the venerated head of the house of Hapsburg has become for our people a blessing and for Europe a sure bulwark of peace, under the protection of which the peaceful development of the nations will continue without interruption."

HAD EIGHT WIVES

London, March 26.—Public interest is absorbed in extraordinary developments following the suicide of George Crossman. On the night of March 23 Crossman killed himself to avoid arrest by the police, whose suspicions had been aroused regarding the contents of a trunk Crossman was sending away from his house. On opening the trunk the body of a woman was found encased in cement. Investigation proved she was murdered about six months ago and was one of Crossman's eight wives. Five of his wives were traced and found alive, one is dead and two are missing. The identity of the body found in the cement cannot yet be ascertained, on account of decomposition and injury to the skull, which had been split with an axe or similar instrument. The police believe an investigation may prove Crossman adopted a similar method in ridding himself of other superfluous wives, of which, it is suspected, he may have had several who have not been traced.

A SEVERE COLD FOR THREE MONTHS.

The following letter from A. J. Nusbaum, of Batesville, Ind., tells its own story: "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me." Refuse substitutes. For sale by J. A. Obermeyer, City drug store.

NEAR TO NATURE

A Delightful Treat Given Hundreds by Ernest Thompson Seton.

The announcement of three lectures by the renowned writer and speaker, Ernest Thompson Seton, was heard with delight by the people of this city, among many of whom his name is a household word through his able and interesting writings. It seems almost superfluous to attempt any report of what the gifted lecturer said, for all who have read anything from his pen knew what to expect.

He took his audience through several tours of the far west and evoked smiles and applause more than once, making good use of the stereopticon. In the morning his theme was the personality of wild animals and he told in his inimitable manner of his experiences with the bears in Yellowstone national park; how he watched them as he concealed himself in the hotel garbage dump and studied them carefully. How they fought, ate, zambled and acted generally. Next he took up the history of a predatory wolf, which he strove several months to destroy in the interest of the live stock in that vicinity. In the afternoon he told of wild animals he had known and gave many astonishing exhibitions of his wonderful powers of imitating the sounds made by the wild creatures. In the evening his theme was the Indians as he knew them, and here, again, he held his audience spellbound. He admires many things in the aborigines of the west and his intimacy with them has given him many opportunities to study them at first hands.

As a whole, Mr. Seton's visit to Jacksonville marked a red letter day.

It is the greatest blessing of the age for weak and suffering women and has made thousands of happy who were dragging out their lives in misery and pain.

Mrs. Effie Bates, Muncie, Ind., 10 F. D. No. 1, says: "When a girl I suffered death every month when I came around, even my hands seemed to swell, and I seemed almost blind at times and I was irregular. I would feel as though I would fall backwards and didn't feel safe by myself at my monthly periods. I used some low bottles of Zoa Phora and that brought me regular and so that I didn't suffer scarcely any and the queer feelings left me."

Write the Zoa Phora Co., Kalamazoo, Mich., for a free trial bottle and copy of their illustrated medical book, "Dr. Fongolly's Advice to Women." The doctor will gladly give free special advice when needed. Zoa Phora is for sale at \$1.00 a bottle by all druggists.

THE MATRIMONIAL RECORD.

PENNEL-WHITLOCK.

Ernest Pennell, of Whitehall, and Miss Laura Whitlock, of Roodhouse, were united in marriage by Rev. R. E. Thropp Friday evening at 9 o'clock in Jacksonville. These young people are well known in their respective communities and came here for a quiet wedding.

CAMPBELL-REID.

A wedding that will be of much surprise to Jacksonville friends of the young people concerned is that of Miss Kittie Clyde Campbell, of Roodhouse, and Clarence M. Reid, of this city, which was solemnized July 18, 1903, at Jerseyville, by Rev. Mr. Dee, pastor of the M. E. church there, at his home. The wedding was kept a secret until a few days ago, when it became known to a few of their intimate friends. Prior to this time not even their families knew of it.

The bride is a daughter of Mr. and Mrs. Amberg Campbell, of Roodhouse, but for the past three or four years has made her home in this city. For a year or more she was employed in the stock room of J. Capps & Sons, where the groom was also employed, and it was here that the young people met for the first time. Several weeks ago the bride resigned her position and went to the home of her parents at Roodhouse, where she remained until a week ago, when she returned to Jacksonville. She is a young lady possessed of a sweet disposition and many charming characteristics, which have won for her the admiration of a wide circle of friends.

The groom is a son of John M. Reid, residing at 330 South Main street, and is employed as stockkeeper at J. Capps & Sons'. He is a young man of strict integrity and of sober and industrious habits, which have placed him in the highest regard of his employers, fellow employees and, in fact, of all who know him. For the present Mr. and Mrs. Reid will reside with his parents at their home on South Main street.

Their many friends in this city will be happy in extending their sincere and hearty congratulations.

Why Fremont Unfermented Grape Juice is Nutritious

Because it's Good, Pure and Unfermented.

FREMONT GRAPE JUICE is not the thing to drink if you must become intoxicated. Thousands of physicians prescribe it in their practice regularly because they have found the FREMONT brand of Grape Juice to be absolutely the life of the grape and nothing else. Alcoholic juices and beverages are temporary stimulants at best, while with FREMONT GRAPE JUICE the good effects are permanent and lasting.

For Sacramental uses, Fremont Grape Juice is certainly the safest, purest and best that can be procured for this purpose.

REV. EDWARD BECK RESIGNS.

After twenty-six years of faithful and continuous service as pastor of the German Lutheran church in this city, Rev. Edw. Beck has tendered his resignation to the board of trustees and it has been accepted. His farewell sermon will be delivered Sunday, April 2. The relations which have existed between Rev. Mr. Beck and the membership of the church have been cordial and pleasant and his resignation causes no small degree of sorrow in the church. However, ill health made the step necessary and he retires to a well earned and much deserved rest. He will continue to make this city his home in the future.

Rev. Mr. Beck's successor will be Rev. Herman Hallberg, who will be ordained as pastor of the German Lutheran church in this city on the first Sunday after Easter. Rev. Mr. Hallberg has recently had charge of a deaf mute pastorate in St. Louis and comes to this city highly recommended as a minister of the gospel. In addition to his church duties he will also preach to the deaf mutes of Jacksonville.

PEOPLE OF JACKSONVILLE

READ THE FOLLOWING TESTIMONY.

And then Decide for yourselves Whether or Not You Will Try Vinol on Our Guarantee to Make You Well and Strong.

I, Lee P. Alcott, Druggist, of Jacksonville, declare Vinol to be the most valuable and delicious preparation of cod liver oil, the greatest health restorer and strength creator we have ever sold in our store. Vinol is not a patent medicine, but it contains in a concentrated form all the vital principles of cod liver oil, without a drop of oil to upset the stomach and retard its work.

We hereby agree to refund your money if Vinol fails to create strength for old people, weak, sickly women and children, nursing mothers, or after a severe sickness. Vinol cures hard colds, hacking coughs, bronchitis and all throat and lung troubles.

In addition to the great good Vinol is doing in Jacksonville we are constantly hearing from it in other places.

Mrs. W. T. Burns, national correspondent W. R. C., writes: "I was all run down, no appetite, weak and nervous. Vinol worked wonders for me—made me well and strong."

Sheriff Barker, Chattanooga, Tenn., writes: "I suffered for years with chronic stomach trouble; all medicines and doctors failed to help me, but Vinol cured me completely."

That noted woman, Mrs. Rose Hawthorne Lathrop, writes: "Vinol restores appetite and will infuse new life and strength into weak women and children when everything else fails."

Mrs. Sarah J. Windrom, of Chicago, grandniece of Alexander Hamilton, writes: "Vinol is a godsend to old people; it invigorates and strengthens as nothing else can."

Mrs. J. G. Brown, of Anderson, Ind., writes: "Our daughter was given up to die of consumption, but Vinol cured her." Try Vinol on our guarantee. Lee P. Alcott, Druggist.

HE SECURED THE CIGARS.

A true story is related of a Methodist minister who once lived in this city and who had various charges in this region. He was a great wag and loved a good joke, though he was a spiritual man and bore a reputation for Christian consistency. Like many of the elderly members of the conference, he had learned the use of tobacco in early life and had not given up the habit, though he practiced it with due discretion. One day he went to a large camp meeting, where he knew he would meet many brethren, and he decided to leave his pipe at home and try to get along without the beloved weed for a few days and managed to stand it very well for a day or two, but when Sunday morning came he was almost beside himself for a smoke, but saw no possible way to get it. As he was wandering about half distracted, he came across a young divine puffing away complacently at a cigar. At once an idea struck him and he tried it for all it was worth. Assuming a look of holy horror he proceeded to read that smoking preacher such a lecture on the evil of his course as he had never heard before. The elderly man was eloquent and had drawn tears from more than one church audience and he almost succeeded with his congregation of one. As it was, the young man was so overcome that he took his cigar from his mouth and declared he would never be guilty of using tobacco again, and he handed his exhorter several cigars he had in his pocket. That was what the lecture was intended to accomplish, and taking them with thanks for the assent given the principles laid down, the reverend speaker moved away as rapidly as decorum and prudence would permit, and in a secluded spot he used up those cigars, or a part of them, in short order. The joke was too good to keep and when he was transferred to another conference he told the story when he felt it was safe. He has long since gone to his reward, leaving to his posterity a good name, but some of his old acquaintances will never forget how he secured a smoke at that camp meeting.

William Shaffer, a brakeman of Demmon, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot and in one week's time was able to go to work as happy as a clam." For sale by all leading druggists.

PROPER TREATMENT OF PNEUMONIA.
 Pneumonia is too dangerous a disease for any one to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however that pneumonia always results from a cold or from an attack of the grip and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this; as during the thirty years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip which have resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by all leading

STATE POLITICS.
In the Republican primaries held
in Alexander county Saturday, Yates
delegates to the county convention
were elected from every precinct in
Marshall. The county precincts could
not be heard from, but it is a fore-
gone conclusion that Governor Yates
adherents will control the convention
Monday, as 72 of the 112 delegates
to the convention belong to Carroll
and were instructed for the govern-
or. Maj. Dan Hogan will be endorsed
for secretary of state.

At the county convention held in
Lake county Saturday, the delegates
to the state convention were instructed
for Lowden by a vote of 140 to 53.
The chief fight was not on gubernatorial
candidates, but on the endorse-
ment for state senator.

S. D. MASTERS DEAD

Passed Away at Citronelle, Ala. Friday Night.

Saturday morning the sad news of
S. D. Masters' death at Citronelle,
Ala., arrived and it was not unexpect-
ed, as he had been in ill health for
some time. In fact, he had not been
really well since arriving at manhood
and had only kept himself alive by
frequent traveling and his judicious
and careful manner of living. Seven
brothers and sisters were taken away
by the fell destroyer, consumption,
and Mr. Masters was the last one
left, and had been the only one for
many years. His mother died nearly
forty years ago, but his father, J. M.
Masters, lived until a few years since
and died at a good old age, while an
uncle in Menard county lived to be
nearly ninety. Mr. Masters' father
began life with nothing, but by care-
ful foresight, ceaseless industry and
much business ability he amassed a
large fortune in farming and stock
dealing, and at his death he left it
practically all to the son who has just
passed away. Between the two there
always existed the closest relations
and affection, each having unbounded
confidence in the other, and it was
never misplaced. S. D. Masters in-
herited his father's business ability
and in his own name was wealthy
when his parent passed away. He, too,
followed farming and stock feeding
largely, though he dealt also in other
things and loaned a great deal of
money. In business he was always
prompt and reliable and met his obli-
gations with scrupulous exactness. He
took great pleasure, too, in his bene-
factions and doubtless more than one
person has reason to remember him
with gratitude. The greater part of
his life was spent at the family resi-
dence near Murrayville, but some
twenty years ago he removed to Jack-
sonville and bought of W. O. Dres-
bach the house the latter erected at
the south end of the street car line.
The last owner completely rebuilt and
remodeled the structure, making it
one of the handsomest in that vicin-
ity.

He was married in December, 1874,
to Miss Ella, daughter of Dr. Light-
foot of Murrayville, and is survived
by his wife, one son, Arthur H., and
a daughter, Mary. One son, Leonard,
died four years ago. He also leaves
one niece and one nephew, William R.
T. Masters, who are all the grand-
children in the family, with the excep-
tion of the son and daughter of the
deceased.

Mr. Masters was peculiarly devoted
to his family and readily made every
possible sacrifice for their good. The
death of his son Leonard was a
crushing blow, from which he never
fully recovered. He was a kind neigh-
bor and a friend whose esteem was
valuable.

He was a leading member of State
Street Presbyterian church and a de-
voted friend of his beloved pastor,
Rev. A. B. Morey, D. D. His contribu-
tions to the church were large and
he was one of the mainstays. For a
number of years, when in better
health, he took much interest in Sun-
day school work; for one or two years
he was president of the county associ-
ation and addressed many conven-
tions in this county and elsewhere.
He will be missed in many places
and it will be hard to find anyone who
will make his loss good.

No announcement of the funeral has
as yet been made.

THE DEATH RECORD.

LEWIS.
H. Lewis, aged about 35 years, a
conductor on a Chicago & Alton
freight train, who fell from his train
at Pleasant Hill, Friday and was run
over, died at Passavant hospital at
11:30 o'clock Saturday night. After
the accident he was brought to this
city and taken to the hospital, where
Dr. Black amputated his left leg. In
addition to other wounds he was se-
riously injured about the head. Before
his arrival here he had suffered so
much from shock and loss of blood
that his condition was regarded as
being extremely critical and the only
hope lay in amputation of the injured
limb.

His home was at Slater, Mo., and
he is survived by his wife and two
children. His wife was present at his
bedside when death ensued.

It is thought that the remains will
be taken to his old home in Pennsylv-
ania for interment.

urday announced the death of New-

the time of his death and his family
did not know that he was ailing. His
dead body was found in his bed Sat-
urday morning and his death is a
great shock to his family and numer-
ous friends. His death is supposed to
have resulted from debility caused by

Tyne, Northumberland, England,
March 6, 1822. In 1843, when he was
21 years old, he left England and
went to Australia. From Australia

Champaign county. He was married
to Mary L. Prosser at Jacksonville
July 5, 1871. He moved from Cham-
paign to Jacksonville in 1882 and
went into the farm machinery busi-
ness. He had resided in Jacksonville
since 1893.

He is survived by one son, Newark

W. Ryland, two sisters and a brother
